Email: nafim.mech@gmail.com

PROFILE SUMMARY

Graduate Mechanical Engineer with strong foundations in manufacturing processes, production systems, and operational coordination. Experienced in industrial environments, safety-focused operations, and cross-functional teamwork through factory training and power plant exposure. Demonstrated leadership as a team coordinator during industrial training, with strong analytical thinking, ownership mindset, and adaptability to fast-paced production settings. Highly motivated to grow in shop-floor operations, people coordination, and process reliability.

CORE COMPETENCIES

- Engineering Fundamentals
- Manufacturing & Industrial Operations
- Supply Chain & Procurement Support
- Data Analysis & Reporting
- Compliance & Documentation
- Problem Solving & Decision Making
- Communication & Cross-Team Coordination

EDUCATION

Bachelor of Science (B.Sc.) in Mechanical Engineering

Shahjalal University of Science and Technology, Sylhet

Session: 2019-20 | CGPA: 3.47/4.00

INDUSTRIAL TRAINING & EXPOSURE

Industrial Training - LafargeHolcim Bangladesh (Surma Plant)

- Acted as team leader, coordinating between trainees and plant engineers to ensure smooth communication and task alignment.
- Observed production processes, equipment operation, safety practices, and maintenance coordination.
- Developed practical understanding of process discipline, workplace safety, and operational efficiency.

Industrial Exposure - Chevron Bangladesh

- Gained understanding of industrial operations, energy systems, logistics, and safety management
- Gained insight into structured shift-based operations and reliability-focused processes.

Industrial Visit - 225 MW Combined Cycle Power Plant (Sylhet)

- Observed power generation operations, equipment coordination, and efficiency monitoring.
- Learned fundamentals of planned operations, downtime awareness, and system interdependencies.

TECHNICAL & DIGITAL SKILLS

- **Office & Data Tools:** MS Excel, MS Word, MS PowerPoint, LaTeX
- **Engineering & Simulation Tools:** SolidWorks, COMSOL Multiphysics
- **Programming:** Python, MATLAB
- **Work Skills:** Data interpretation, reporting, presentation

CERTIFICATIONS

- Certified SOLIDWORKS Associate (CSWA)
Dassault Systèmes | June 2026
Credential ID: C-CB92K8VFSZ
- Python Programming for PCEP Beginner to Certified
Udemy | March 2026
Certificate ID: UC-f1273aa8-7326-4110-b3c5-66d094930a64

LANGUAGE PROFICIENCY

- Bengali - Native
- English - Professional Working Proficiency

PROJECTS & ACADEMIC WORK

Undergraduate Thesis - Experimental and Numerical Investigation of a Shell & Plate Heat Exchanger

- Conducted experimental and numerical analysis of thermal systems
- Interpreted operational data and simulation outputs.
- Prepared structured technical reports, improving analytical and documentation skills.

Project - Driver Drowsiness Detection System (Arduino-based)

- Developed a real-time monitoring and alert system using sensors.
- Strengthened understanding of system reliability, data interpretation, and real-time response.

EXTRACURRICULAR ACTIVITIES

- Runners-up, Men double badminton tournament - AGONISTIC V7.0
- Runners-up, Short-Pitch Cricket Tournament - MEE Tournament 2022.
